

HOW DO I FIND MY COURSE?

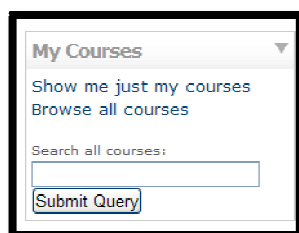

Once you have logged in to Moodle a list of your courses will be displayed down the left hand side of the screen as shown in the diagram below.

WHAT IF MY COURSE ISN'T LISTED? (LOGGED IN USERS)

Moodle will allow you to add yourself onto any course that you are missing – but you need to find it first.

You can search for a course if you know the title, or you can use the 'Browse all courses' link on the left hand side to help you find the area you are missing.

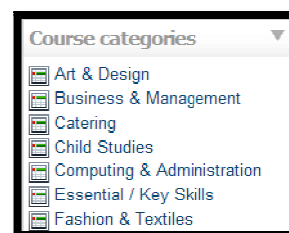

ENROLMENT KEY (COURSE PASSWORD)

Most courses on Moodle are password protected. When you try to add yourself onto a new course you will be asked to type in the enrolment key (password). **The password for your course is available from your tutor.**

WHAT IF I MY COURSE ISN'T LISTED (GUEST USERS)

If you are a guest and you haven't logged in to Moodle then the system won't know which course(s) you want to access.

On the left hand side of the screen a list of course categories is displayed. Click on the desired subject area to get a list of the courses available for that area.

ENROLMENT KEY (COURSE PASSWORD)

Most courses on Moodle are password protected. Guests will be asked to type in the enrolment key (password) each time they access a course. **The password for your course is available from your tutor.**
